

SIB – NBIC Winter school 2013

"In the intersection of bioinformatics and medicine"

March 10-15, 2013

Hotel Alfa Soleil, Kandersteg, Switzerland

Schedule	Sun 10	Mon 11	Tue 12	Wed 13	Thu 14	Fri 15
9h-13h (with 30' coffee break)		Niko Beerenwinkel and Florian Markowetz Cancer genomics and treatments	Tina Ritschel Computer-Assisted Drug Design		Sven Bergmann and Han Brunner Analysis of sequence information for a better understanding of disease	Frank van Harmelen:
		<i>Lunch</i>	<i>Lunch</i>	<i>Outdoor activity: ski, snow-shoes walk</i>	<i>Lunch</i>	<i>Lunch</i>
14h30-18h30 (with 30' coffee break)	Individual arrivals with no specific program	Niko Beerenwinkel and Florian Markowetz Cancer genomics and treatments	Christian Lemmen Docking & Scoring: The Optimization Perspective		Sven Bergmann and Han Brunner	Janna Hastings Harnessing the knowledge encoded in bio-ontologies for interdisciplinary analysis and translation (ends around 16h00)
19h-21h	<i>Welcome Dinner</i>	<i>Dinner</i>	<i>Dinner</i>	<i>Dinner</i>	<i>Dinner</i>	
21h-22h30	Speed presentations				Frank and Janna introduction
